POPULAR

ASTRONOMY

PLAINLY WORDED AND LARGELY UNTECHNICAL IN LANGUAGE. AMPLY ILLUSTRATED.

ISSUED MONTHLY EXCEPT JULY AND AUGUST
ANNUAL VOLUME (10 NUMBERS.)

VOL. XVII.

1909.

EDITORS:
WILLIAM W. PAYNE, H. C. WILSON.

PUBLISHED AT NORTHFIELD, MINNESOTA,
U. S. A.

+407

INDEX TO ILLUSTRATIONS.

Boundary commission diagrams of the 49th parallel, *Otto Klotz*..... 152
Brackett observatory.....18, 19
Coelostat made by Wm. Gaertner..... 658
Comet families of Saturn, Uranus and Neptune, *H. C. Wilson* Plate XI.....
.....Op. 597, 631
Morehouse, (*c* 1908), Plates II, III, *J. H. Metcalf*.....Op. 65
Nov. 11, 15 and 16, *D. W. Morehouse*..... 122
Stereoscopic views of, *E. E. Barnard*, Plate IX.....Op. 531
Constellations.....46, 107, 182, 245, 314, 375, 443, 510, 641
Eclipse of sun, June 17, 1909..... 315
H. C. Wilson..... 40
Dec. 12, 1909, Partial, *H. C. Wilson*..... 42
Gnomon, *H. B. Curtis*..... 611
Halley's comet, *Max Wolf*, Plate X.....Op. 578
Hough, George Washington, Plate V.....Op. 197
Horizontal sun-dial, *H. B. Curtis*..... 610
Light curve of Y *Lacertae*..... 448
Mars' satellites at opposition, Apparent orbits of, *H. C. Wilson*..... 45
Moon and Mars in conjunction, *L. G. Léon*..... 655
Neptune's satellite's motion..... 657
Newcomb, Simon, Plate VIII.....Op. 465
Paths of Mars, Jupiter, Saturn, Uranus and Neptune, 1909, *H. C. Wilson*... 44
Mercury, and Venus, in 1909, *H. C. Wilson*..... 43
Saturn's satellites, Apparent orbits of, *H. C. Wilson*..... 45
Solar camera attached to telescope, *David E. Hadden*..... 22
spectroscope and position micrometer, *David E. Hadden*..... 21
eclipse of June 17, 1909, as visible in U. S., *William F. Rigge*..... 283
Spiral nebula Messier 51 in Canes, Plate VI.....Op. 263
Stellar spectra photographed with Bruce spectrograph, *Frost* and *Adams*,
Plate VII.....Op. 397
Sun, Sept. 3, 1908, *David E. Hadden*..... 20
Sun's appearance during eclipse, *William F. Rigge*..... 284
Zenith telescope, Wharton instrument, Plate I.....Op. 1

GENERAL INDEX TO VOLUME XVII.

Ancient history and worship of the planet Venus, *Irene E. Toye Warner*..... 80
Asteroids, Elements of new..... 50
Numbering recently discovered..... 50
Astrographic chart and catalogue..... 392
Astronomical and Astrophysical Society of America, 1908 meeting..... 124
Cor. 328
1909 meeting..463, 526, 588
discoveries by Harvard observatory..... 662
phenomena in 1909, *H. C. Wilson*..... 40
theory of the molecule and an electronic theory of matter, *Severinus J. Corrigan*...28, 85, 162, 213, 304, 356, 424, 508, 548, 618
work at Mare Island observatory..... 655
Astronomical Journal changes hands..... 656
Astronomy in Horace, *Harlow Shapley*..... 397
of Mars, *William H. Pickering*..... 495
Plea for a revived interest in, *William Tyler Olcott*..... 5
Atmosphere of the sun, Progressive revelation of the, *H. Deslandres*..... 402
Aurora seen at Charlevoix, Michigan, *Charles F. Brooks*..... 458
Auroral arch, A well-defined, *Severinus J. Corrigan*..... 75
B. A. A. S. at Winnipeg, Canada, *J. J. Thompson*..... 539
Bands from aurora or sunset, *Charles F. Brooks*..... 120
Barnard, E. E., On the erroneous results of a stereoscopic combination of photographs of a comet..... 531
Suggestions in respect to photographing comets with special reference to Halley's comet..... 597
Barnard's, Professor E. E., photographs of the Milky Way..... 463
Barnes, Willis L., A graphical method of finding the apparent orbit of a double star..... 285
Bartlett, Arthur K., The wet and dry moon..... 11
Brackett, F. P., observatory dedicated, The..... 14
Brenke, W. W., Journey to the north pole..... 594
Brooks, Charles F., Aurora seen at Charlevoix, Michigan..... 458
Bands from aurora or sunset..... 120
Burnham's, S. W., recent double star measures..... 561
Calendar notes, *R. W. McFarland*..... 62
Campbell, F., Is the universe infinite?..... 614
Camelopardalis, The constellation, *Edward C. Pickering*..... 100
Cause of the remarkable circularity of the orbits of the planets and satellites and on the origin of the planetary system, *T. J. J. See*..... 263
o Ceti, Spectrum of,..... 462
Chance of collision with a comet, iron meteorites, and Coon Butte, *William H. Pickering*..... 329
Cor. 457

Coelostat made by Wm. Gaertner..... 658
Color-perception, *F. J. B. Cordeiro*..... 23
Comet 1886 III..... 514
1890 VII (Spitaler), Course computed of..... 64
1896 V (Giacobini).....642-3
1896 VII, Perrine's periodic..... 446
1898 VI Perrine)..... 644
d 1907, (Daniel), Opposition ephemeris of..... 317
c 1908 (Morehouse), *Joel H. Metcalf*..... 73
D. W. Morehouse..... 122
Elements of..... 247
Ephemeris of..... 109
Martin Ebell..... 318
Photographs, *Edward C. Pickering*..... 255
Spectrum of..... 257
a 1909, (Borrelly-Daniel).....377, 446
families of Saturn, Uranus and Neptune, *H. C. Wilson*..... 630
Halley, See Halley's comet
Tempel-Swift, Elements..... 184
Winnecke 644
Comets in 1909..... 48
Comstock, George C., On the nature and possible origin of the Milky Way.. 339
Conjunction of the moon and Mars, *L. G. Léon*..... 655
Cordeiro, F. J. B., Color-perception..... 23
Corrigan, Severinus J., An astronomical theory of the molecule and an electronic theory of matter.....28, 85, 162, 213, 304, 356, 424, 508, 618
A well-defined auroral arch..... 75
Curtis, H. B., Construction of a sun-dial that will keep accurate time..... 609
d'Auria, Luigi, Kinetic theory of gases, Problem in..... 129
Deslandres, H., On the progressive revelation of the entire atmosphere of the sun..... 402
Dole, Robert M., Perseids in 1909..... 592
Doolittle, Eric, Occultation of Mars..... 524
A simple method devised by F. C. Penrose for finding the orbit of a heavenly body by a graphical process.....
.....65, 138, 200, 292. 365
Doolittle's observations with the Wharton reflex zenith tube, *T. J. J. See*.... 1
Double star observations, *E. D. Roe, Jr*.....125; Cor. 196
Σ 2398, Parallax of..... 523
Dynamical theory of the capture of satellites, *T. J. J. See*.....481, 534
Earthquakes, Suspected causes of..... 258
Ebell, Martin, Ephemeris of comet *c* 1909 (Morehouse)..... 318
Eclipse of moon, Nov. 26-27, 1909, Total..... 525
sun as visible in U. S., (June 17, 1909), *William F. Rigge*..... 282
Ely, Owen, Notes on an argument against an infinite universe..... 209
Theories of gravitation..... 563
Eros, Ephemeris of..... 319
Fath, E. A., Is the universe infinite?..... 63
Spectra of some spiral nebulae and globular star clusters..... 504
Forty-ninth parallel, *Otto Klotz*..... 151
Future of astronomy, Extracts from E. C. Pickering's address on..... 659

Gallo, Joaquin, Spectroscopic work at Tacubaya observatory..... 388
Gleason, Rutherford Erwin, Graphic determination of the complex roots of a cubic equation..... 119
Gore, J. E., Irish astronomical tract..... 174
Graphic determination of the complex roots of a cubic equation, *R. E. Gleason* 119
Graphical method of finding the apparent orbit of a double star, *Willis L. Barnes* 285
Gravitation, *Charles Morris*.....232, 373
theories, *Owen Ely*..... 563
Hadden, David E., Photographing the sun..... 20
Halley, Dr. Edmond, *Eugene F. McPike*..... 408
Halley's comet.....108, 512, 576, 577, 578, 644, 645
Geocentric position of, *F. E. Seagrave*.....50, 317
Searching for, *Joel H. Metcalf*..... 440
Yerkes photographs of, *Oliver J. Lee*..... 160
Hassard, A. R. J. F., Summer observations at Toronto, Canada..... 393
Sun-spot groups.....117, 120
Henkel, F. W., Venus as the abode of life..... 412
Hough, George J., George Washington Hough..... 197
Hough, George Washington, *George J. Hough*..... 197
Intelligence on Mars or Venus, *N. W. Mumford*..... 497
Irish astronomical tract, *J. E. Gore*..... 174
Jordan, Frank C., Orbit of ζ^1 *Lyrae*..... 571
Journey to the north pole, *W. W. Brenke*..... 594
Jupiter in 1909, *Irene E. Toye Warner*..... 547
Jupiter's satellites.....183, 246, 316
Kinetic theory of gases, Problems in, Luigi d'Auria..... 129
Klotz, Otto, Forty-ninth parallel..... 151
Lee, Oliver J., Photographic search for Halley's comet..... 160
Lick observatory publications, Volume VIII, *W. W. Campbell*.....117, 258
Lowell, Percival, Size of southern solar cap of Mars..... 60
observatory, 40-inch reflector of..... 661
distributing center for planetary news for America 662
ζ^1 *Lyrae,* Orbit of, *Frank C. Jordan*..... 571
Macpherson, Hector, Jr., Theories of celestial evolution..... 418
Mars, Occultation of, *Eric Doolittle*..... 524
Winslow Upton..... 524
photographed at Yerkes observatory..... 596
in 1907, Size of south polar cap, *Percival Lowell*..... 60
Spectrum of.....327, 523; Cor. 596
McFarland, R. W., Calendar notes..... 62
McPike, Eugene F., Dr. Edmond Halley..... 408
Measurements of intensification of aqueous bands in the spectrum of Mars... 259
Mercury observations, *George F. Nolte*..... 523
Metcalf, Joel H., Comet Morehouse (*c* 1908)..... 73
Searching for Halley's comet..... 440
Meteor observation, *A. H. Patterson*..... 118
Meteorological photography..... 462
Milky Way, Nature and possible origin of the, *George C. Comstock*..... 339
Moon, The wet and dry, *Arthur K. Bartlett*..... 11
